Wilson, R. A., March, p. 37

ISSUE THEMES

Jan.—**Flame-cutting in:** heavy equipment manufacture; steel mill; gears; edge prep; pipe repair; custom fabricating; oil drilling equipment; also mechanical cutting.
Feb.—**RW:** Boeing's NC spot welder; automated in-line RW for refrigerator manufacture; tube heat exchange fins; magnetic contactor; automobile instruments.
March—**Sub-arc:** progress report; flux recovery for economy.
April—**Mig:** choosing proper process; shielding gas recommendations; comparison with manual methods.
May—**Pipe fitting and welding:** 'Monopod' offshore drilling rig; laying X60 pipe; laying water pipe in Grand Canyon.
June—**Power sources, Mig and Tig:** selection of; terms; a brief history of; an introduction to.
Mid-year Fact File—**Training weldors:** Survey of industry needs, hiring practices; sources of trained weldors; training statistics; statistics on welding processes.
July—**Welding accessories:** The chipping hammer.
Aug.—**Welded products in the home;** also new seam welder.
Sept.—**Tig welding:** Tig electrodes; commercial products (Toledo Scale); melt-through tee welding.
Oct.—**Wires for welding:** Mig wire selection; review; characteristics.
Nov.—**Abrasives:** finishing plasma-sprayed coatings; hi-frequency grinders; figuring costs of vertical spindle rotary surface grinding.
Dec.—**Associated tools for welding:** Machines and tooling for fabrication of tanks and pressure vessels.

VERSATILE!

FOR EVERY SEMI-AUTOMATIC OR AUTOMATIC WELDING REQUIREMENT

- Gas Shielded-Flux cored and solid wires
- Open Arc-Flux cored wires
- Submerged Arc-Solid wires
- Feeds—.020" to 1/16" solid wires 1/16" to 1/8" cored wires

For details write:

FEATURE ARTICLES

A

Aircraft has welded tubular fuselage, July, p. 44
All seams 'vertical' to electrogas/slag unit, Jan., p. 76
All you need to know about tungsten electrodes, Sept., p. 41
Alloy pipeline feeds Saturn V test system, Jan., p. 64
Alloy, stainless, features superplasticity, Dec., p. 64
Aluminum for welded truck bodies, Feb., p. 82
Aluminum, welding design and process manual, Jan., p. 49
Aluminum welding, joint design for, Aug., p. 66
Apollo spacecraft, welding its launch facility, March, p. 46
Arc welding, neglected factors in, Aug., p. 58
Are your employees satisfied? April, p. 88
As-deposited welds achieve 169,000 psi tensile strength, Feb., p. 77
Attitude: the too often neglected aspect of the industrial trainee, Fact File, p. 20
Automated in-line RW for refrigerators, Feb. p. 44
Automated RW moves into truck manufacture, April, p. 82
Automatic spot blast and weld line, Oct., p. 54
AWS Exhibition, the: Our camera's eye view, June, p. 54
AWS fall meeting, Sept., p. 74
AWS 48th annual gala promises to be largest, March, p. 49
AWS welding show could be its biggest, April, p. 49

B

Bender made of square tubing, Oct., p. 58
Beveling machines give an 'edge', Jan., p. 44
Biggest jet engine requires biggest EB welding chamber, Aug., p. 45
Black gold beneath the cold Alaskan Sea, May, p. 43
Blast gun battery clears the deck for welding, Oct., p. 54
Boeing readies giant NC spot welder, Feb., p. 39
Brazing fluxes, characteristics in use, May, p. 72
Brazing, maintaining concentricity during, Oct., p. 68
Bridge or barge, pontoons for, Feb., p. 64
Bridgemen turn sculptors for Picasso artwork, Nov., p. 50
Brittle fracture, initiation of in structural steels, Part I, Oct., p. 74; Part II, Nov., p. 67
Bronze welding on a burst boiler, Jan., p. 78
Building a new headquarters and an RW pipe mill for U.S. Steel, April, p. 106
Buildings, design awards for, Feb., p. 78
Bus bar system, improved design of, Dec., p. 46

C

Case, the, for hi-frequency grinders, Nov., p. 44
Case for displacement type welding chambers, Feb., p. 59
Cast iron & steel, welding design and process manual, March, p. 51
Castings, welding of, Nov., p. 74
Chambers, welding, case for displacement type, Feb., p. 59
Chipping hammer as a welding accessory, July, p. 37
Clearance, jigging tips for tube-in-tube brazing, March, p. 66
Coal transfer machine, welded design of, Aug., p. 52
Co_2-Mig, the economic factors, July, p. 58
Computers will 'remember' EB welding, May, p. 89
Concrete is basic, but welding is essential, Sept., p. 55
Copper & its alloys, welding design & process manual, June, p. 59
Cracks and microfissures — base metals, June, p. 80
Cracks and microfissures — weld deposits, Jan., p. 57
Crossing San Francisco Bay, surrounded by welding, Oct., p. 50
Current leaks, how to detect and remedy, Feb., p. 70
Cutting costs with the cutting flame, Jan., p. 35
Cutting torch gets rough workout at C & O car shop, Nov., p. 60

D

Dallas welding school opens California branch, March, p. 62
Dam has welded trash rack system, April, p. 103
Defects on weld surfaces, April, p. 92
Defective welds deliberately produced for tests, June, p. 78
Design awards, AISI, May, p. 56
Design, new approach to Mig guns, Dec., p. 44
Design of coal transfer machine includes welding, Aug., p. 52
Diving helmets and gear, fabrication of, Aug., p. 77

E

EB welder in a job shop, Nov., p. 54
EB welder modified for rigid requirements, Dec., p. 62
EB welding computer parts, May, p. 89
EB welding in continuous tube mill, Dec., p. 42
Economics of flame-cutting, Jan., p. 35
Editorials — And the next 33 years, Jan., p. 33; It's here to stay, Feb., p. 37; A game of take and give, March, p. 35; Our two cents added, April, p. 41; Taken to task, May, p. 41; Big, but think bigger, June, p. 43; In spirit as well as name, July, p. 35; New way to spread the word, Aug., p. 41; Now think welding, Sept., p. 39; We live in a welded world, Oct., p. 41; Ere it be too late, Nov., p. 39; Peace and good welds, Dec., p. 35
Education and employment of weldors, statistics, Fact File, p. 14
Education, developing good attitude in the industrial trainee, Fact File, p. 20
Education in welding, public need for, Fact File, p. 13
Education, one welding school's program, Fact File, p. 19
Electrodes, RW, tungsten carbide application for longer life, Oct., p. 83
Electrodes, tungsten, all you need to know about them, Sept., p. 41
Electron beam cable, a profile, Feb., p. 74
Electron beam for a giant jet engine component, Aug., p. 45
Electroslag for world's largest nuclear pumps, March, p. 78
Electroslag scores again with nuclear industry, Sept., p. 52
Electrogas/slag vertical welding, Jan., p. 76
Employee satisfaction, how to ensure it, April, p. 88
Engineering data sheets: No. 317, Welds —good and bad, Jan., p. 71; No. 318, Calculating electrode consumption, Feb., p. 67; No. 319, Stress relief: power, cable length, March, p. 63; No. 320, Selection guide to Mig processes, April, p. 56; No. 321, Conversion to RPM, May, p. 71; No. 322, Conversion, inch/mm, June, p. 71; No. 323, Conversion, inch/mm (part II), July, p. 46; No. 324, Safety products chart, Aug., p. 65; No. 325, Tig arc-spot welding, Sept., p. 61; No. 326, Friction weldability of metals, Oct., p. 65; No. 327, NEMA's electrode color code, Nov., p. 63; No. 328, Constitution diagram for stainless steel weld metal, Dec., p. 51
Expo 67, welding for, April, p. 50

F

Fabrication of tanks by major producer, Dec. p. 37
Factors influencing the grinding of plasma sprayed coatings, Nov., p. 41

Remove Welding Fumes at the Source... with RUEMELIN FUME COLLECTOR

Welding shops equipped with Ruemelin Fume Collectors are assured of a clean shop atmosphere. Noxious fumes, heat and smoke are eliminated AT THEIR SOURCE. Improves working conditions . . . lessens fatigue . . . paves the way for increased plant production. Especially helpful in winter months when windows and doors are closed.

Note the new spring-loaded counterbalance mechanism which makes Fume Collectors much easier to handle.

Tube mill, continuous, EB welding in, Dec., p. 42
Tubing, square, bender fabricated of, Oct., p. 58
Tubular airframe welding, July, p. 44
Tungsten electrodes, description, selection, and use, Sept., p. 41

U

Ultrasonics for first clear span toll road restaurant, July, p. 37
USS: A building for the future, a pipe mill now, April, p. 106

V

Variety of consumables boosts Mig's application flexibility, Oct., p. 43
Vertical spindle rotary grinding, costs of, Nov., p. 45
Vibratory stress relieving, Aug., p. 46

W

Weld surface defects: strikes, pits and spatter, April, p. 92
Welded fountain for Hobart school, Aug., p. 51
Welded pavilions at Expo 67, April, p. 50
Welded products in the home, Aug., p. 43
Welded tower 'sculptured' for railroad yard, Oct., p. 71
Welding accessories, the chipping hammer, July, p. 37
Welding aids steel design award winners, May, p. 56
Welding chambers, displacement type, Feb., p. 59
Welding, choosing proper Mig process, April, p. 43
Welding: constant companion to castings, Nov., p. 74
Welding design and process manual: Aluminum, Jan., p. 49; Magnesium, Feb., p. 51; Cast iron & steel, March, p. 50; Titanium, April, p. 61; Lead, Zinc, Galvanized, May, p. 61; Copper & its alloys, June, p. 59
Welding helps make Piper's Pawnee one of safest planes, July, p. 37
Welding in the 'balance' at Toledo Scale, Sept., p. 46
Welding industry: 1966 up 9%, Fact File, p. 10
Welding keeps Apollo on schedule, March, p. 46
Welding, NDT meeting at Montreal, April, p. 54
Welding, the neglected factors in, Aug., p. 58
Welding on the job: six "case history" applications, Aug., p. 55
Welding, physics of: Part II, Jan., p. 66; Part III, Feb., p. 80; Part IV, March, p. 70; Part V, May, p. 54; Part VI, June, p. 86; Part VII, July, p. 56; Part VIII, Aug., p. 78; Part IX, Sept., p. 72; Part X, Oct., p. 84; Part XI, Dec., p. 58
Welding position does have effect on porosity formation, Sept., p. 62
Welding processes, survey of order of importance, Fact File, p. 22
Welding research and NDT meeting at IIT, Jan., p. 60
Welding Show, photo review, June, p. 54
Welding Show to be in Detroit, April, p. 49
Welding simplifies design of a coal transfer machine, Aug., p. 52
Welding, tools put a Brownie on your tank, Dec., p. 37
Welding training — bridge to the adequate man, Fact File, p. 19
Welding with mechanized sub-arc, March, p. 37
Weldors, high school vocational programs, Fact File, p. 18
What you can do about welding current leaks, Feb., p. 70
Wire let-off stands, large reels for, Oct., p. 49
Wires boost Mig's application flexibility, Oct., p. 43
Women are handy with Mig guns, Nov., p. 53
World's biggest mesh welder, Oct., p. 52
Worst welding ever; by design, June, p. 78

Y

You can create good will if you know 'sign' language, April, p. 72
You can [illegible]l claim investment tax credit, Jan., p. 72
Your 1967 Editorial Index, Dec., p. 76

CUTTING TOOLS WORK WONDERS with

ALUMICUT

THE FAULTLESS CUTTING FLUID FOR ALUMINUM

Try it on aluminum — cutting, tapping, drilling, shaping, boring — and KNOW that a little ALUMICUT goes a long way toward eliminating regular aluminum problems. No more shaving pile-up. No more gauling. Yields a smoother finish everytime. It's non-toxic. Has a "safe" 340° flash point. Works beautifully on all metals — but on aluminum, it's a wonder! Goes farther, too.

SEND FOR 4 oz. SAMPLE

Attach ten-5¢ stamps to this coupon or to your company letterhead for a test sample of ALUMICUT, postpaid, posthaste.
